

IMPORTANT UPDATES

iCademy Middle East Knowledge Hub is opening soon for Fall 2021 start dates.

A state of the art facility, offering a safe and interactive learning environment.

Designed for students of all learning capabilities, certified teachers, warm and caring learning environment. Low student – teacher ratio ensures that each student will get personalized attention from teachers. Flexible attendance options, students can attend either part time or full time. STEM labs with dedicated science teachers, after school, social & sports activities and many more.

Located in block 5 Dubai Knowledge Park, a spacious facility with a green concourse and nearby to food court.

MESSAGE FROM HEAD OF SCHOOL

Hello Families and Students,

The academic year 2020 – 2021 has been very challenging for students and parents, some of who may not have had previous experience with online learning. It has been equally challenging for most of the brick-and-mortar schools to adapt the online mode of education. I am proud to recognize that iCademy Middle East has provided helping hand during this time, not only to many families but several brick and mortar schools as well.

While transitioning to the new 21-22 academic year, our team is equally committed to providing high quality, rigorous education. It is our topmost agenda to keep on improving the learning experience of students through platform & curriculum enhancements as well as by providing a safe and innovative learning environment. In pursuit of this goal, one of the major enhancements what we are making for up coming academic year is opening of new learning facility, iCademy Middle East Knowledge Hub. This new facility has been designed to meet the safety standards as well as learning needs of advanced learners. **We invite you to join us for an Open House event prior to the Knowledge Hub opening September 1st-dates and times to be announced.**

Finally, I would like to thank to all of iCademy Middle East families for your continued support and faith in our team, and we look forward to full fill the education needs of kids with more innovative and personalized teaching and learning methodologies.

Kind Regards,

Diane Claver

Head of School - iCademy Middle East

STUDENT CORNER

The British International Education Association (BIEA) is a nonprofit organization with head office in London. BIEA aims to bring together educators and young people from around the world, who share a passion for Science, Technology, Engineering and Mathematics (STEM). Theme for 2021 BIEA STEM competition is "Rethink food packaging for school packages and workplace lunches". We have two teams of students this year working on their projects for the BIEA STEM competition.

This has been always the core objective of our teaching methodology; to equip our students with modern era's skills set. And to enable them to accel not only in academics but social, professional, and other areas of their life as well.

SUMMER SCHOOL PROGRAM

iCademy Middle East's Summer School program offers high school students a wide variety of teacher-supported courses, specifically designed for the summer months.

These are the same high-quality courses offered during the school year, but each course has been condensed to four weeks (20 instructional days) for the summer. Students are expected to commit 4–5 hours a day for each summer course. Summer School at iCademy Middle East offers students the opportunity to catchup, get ahead, and even try new electives so that they can start the next academic year in a strong position.

Benefits of summer school:

- Opportunity to develop independent learning skills.
- Flexibility & convenience to retake a failed course-or get ahead in school-over the summer months rather than during the school year.
- Students can experience a course using a different delivery system and work at a pace they can handle.

Get in touch with our enrollment team to get more details.

REFERRAL INITIATIVE

TERMS & CONDITIONS

A successful referral means an application has been processed and the payment has been made in full.

No limit on number of students referred.

The AED 500 discount cannot be applied to part-time, semester, or summer courses. It is only applicable for a full-time student.

The payment will be credited on the 3rd month after enrollment, assuming the student does not withdraw within this period.

The enrolling family needs to mention the referring family name to ensure they receive the AED 500 discount.
