

High School Diploma Requirements

As an accredited school, iCademy Middle East offers its graduates a U.S. diploma accepted by schools, colleges, universities, and employers around the globe. To graduate and receive a U.S. high school diploma from iCademy Middle East, students must be full-time and complete 24 credits in the following subject areas. Each full-year course earns one full credit:

English	4 credits
Math	4 credits (Algebra 1 and higher)
Science	4 credits (must include 2 lab science credits)
History	4 credits (must include 1 credit of US History)
World Language	2 credits (must be 2 credits of the same language; must be a non-English language course)
Physical Education	0.5 credit
Health	0.5 credit
Electives	5 credits
Total	24 Credits

Of the 24 required credits, full-time students must complete a minimum of 6 credits (one full year of study) with our school to be eligible for the diploma.

For full-time students, iCademy Middle East will consider accepting credits earned at other institutions when an official transcript(s) has/have been received. Transfer of credits from a public school or accredited private institution will be considered on an individual basis. Transcript analysis will sometimes require further research and contact with prior institutions to determine eligibility of transfer credits. International records may require translation and/or evaluation prior to being considered for transfer credits. Transcripts from other institutions that have been presented for admission or evaluation become part of the student's academic file and will not be returned or copied for distribution.
